

# Primary Rate Interface (PRI)

## Advanced, cost-effective voice solutions.

Insight Business's PRI Voice Service utilizes Internet Protocol (IP) technology to deliver the features you need at competitive prices. Unlike analog voice plans, our digital service can help eliminate monthly per-line charges. Insight Business PRI service is a complete solution for making business communications more productive and more convenient. Additionally, by bundling with our fiber-optic Dedicated Internet Access product, Insight Business PRI can become an even more cost-effective solution for your business.

## Switching is easy.

Insight Business will assign a local, dedicated account team to work closely with you to understand your business goals and challenges. Then, they will develop a solution that fits your needs and your budget. That same team will continue to manage your account beyond installation, offering the peace of mind that comes from having consistent contact with people who know you and your business.

## Who is Insight Business?

We are a leading business telecommunications provider serving businesses with mission-critical needs throughout the region. We provide 24/7/365 service and a fully staffed Network Operations Center. We are local. We are passionate about your business. We are ready to be your partner.

### Cost-Effective.

PRI can help eliminate analog voice monthly per-line charges, while also offering customizable options, so you get the complete voice system your business needs at a highly competitive rate.

### Feature Rich.

23 B + D standard PRI configuration, simultaneous voice calls, unlimited local service calling, and Caller ID – all included.

### Reliable.

Our local Network Operations Center monitors customer lines 24/7/365, providing immediate and proactive service. Pick up the phone at any time and talk to a person who can immediately answer your questions.

# Primary Rate Interface (PRI)
